Where am I?
Hurry up and fess about what's this Orochi vessel.
Y' ain't got the time fer be unconscious.
...right.
I was brought to Iga...
geuuh...
Tch She's not spitting it up

After the flesh's been pierced by the metal the heat makes the nerves get wrecked.
There're even those who die from the pain
How much can you handle?
Looks like the hooks've been seated up nicely, don't you think?
Where do you want me to put it? Your arm? Your stomach?
Hm? What?
Feel like talking?
I'm hungry

gth. 11
You bitch!
Don't pull some stupid pride crap!
I know the Orochi's out there!
what will you do if you find the Orochi?
You know don't you!? You're the Dokure Heazuka!!
The rest's the vessel! Who'd the Orochi choose as host!?

There's nothing to be scared of if we have the power of the Orochi. Even Oda—
Don't talk
That's obvious! We'll take Iga!
Your breath stinks, you fat pig
You bitiiitch!!
We were told by the Momochi not to hurt her "from neck and up"...!
O—h, that's bad.

twelve house meeting — a meeting with 12 representatives chosen from Iga's first rank member
I don't like them anyway
I don't care that they're one of the branches belonging to the three grand masters they do too much on their own
Like how they ignored what was decided at the Twelve House Meeting last time
Momochi
Hah—as if I care!
W-well I guess I don't have any objections if we can do whatever we want from her neck down
They'll lead Iga towards doom that way
And now when we're being targeted by Oda
Hey
Shut up
Now I'll let you feel something good

What are you doing?

I don't know why you're here, but you're in the way!
Go home alright
This was left to us at the meeting.
Mo-Momochi...
Tenka-san likes that woman's hair, so don't be rough on her.
ARE YOU GOING AGAINST MOMOCHI?
Hah-!
Did you really think we'd just silently obey!?
ow--

Let go!
You're not Iga anyway!
Hmmm..
So the Iga has different factions too.
Ohhh?
So you're bothered by it after all
I bet
You might be by Tamba's side normally
but you're just a thrown away orphan.
You sure have guts playing dumb
Even though you're not real Iga
hahah
No one will accept you even if you call yourself "Momoch"
when you don't have the blood or the talent.

I feel you're feeling it
that you're not fitting in with the Iga
Tanba-san would never say something like that
Mmmmh Tanba said that a shinobi like you is beneath him.
You'll just turn into a sacrificial pawn.
There is no place for you
anywhere!!
You're an orphan after all. You were born to be thrown away so it doesn't matter if you die
Get lost, outsider!!

My apologies
Your filthy saliva came flying, see

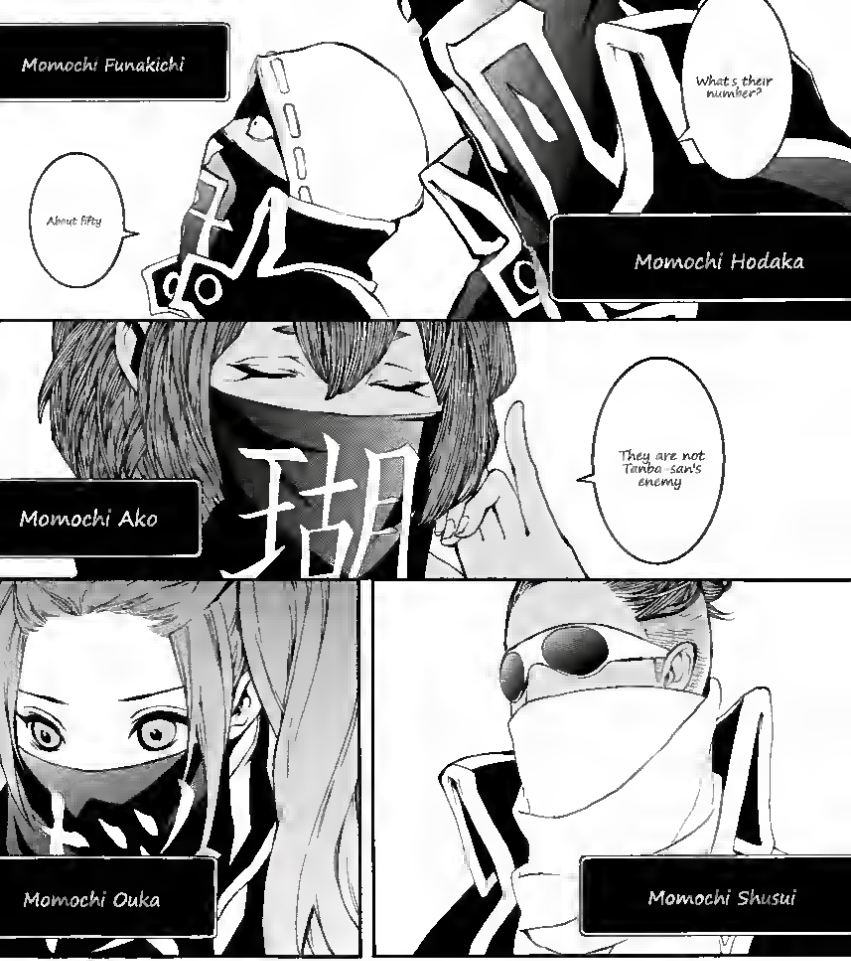
Isn't it loose?
This came off
.....
Not having any parents or being a woman...
I hate the type who decide people's worth due to their circumstances the most.
_____ you tore up your wrists to get out of the ropes
Piece of shit!!
I'll kill you!!
.....

Mo-Momochi
Kaishin..!
That's enough.

What!?
We're not fin shed interrogating her! At the meeting t was dec ded that we were to d' it !
We'll be taking her with us too
Kaishin-san.
Ouka Tanba-san is asking for you
Don't you remember that it was decided at that meeting
What "if you cannot make her say anything, she will be handed over to Momochi"?
This guy...
You're still conscious despite all that. so you can walk on your own.
I'm badly wounded though.
Come.

I merely thought it would be a waste of time.
It's rare that you show consideration for anyone. You must like her.
Uh..!
桜の
What's up with this girl's unusual strength?
Nonono she's lifting me so easily
!
You're not going?
There must be some soldiers intruding again.
It happens often.
What!?

!
Tanba_san left a little while ago. so it's fine.
He went alone again....
When did he
Momochi Kaishin
!Hell come back soon either way
Momochi Goemon
That is how Tanba-san_s. He.s so cool
Momochi Ichiha



Eight

I've heard that Iga's Momochi has eight really skilled shinobi

They're strong enough to be recognized by Tamba.

The Momochi sect's
"Great Eight"....

What!?
What's going on!?
Wh

Ah-

Boring
Eki?

!!
H..he caught the arrows bare-handed from that distance !
Hii..
Ah..
Sa..save me..!

One of the Iga Grand Masters.
The Momochi head, Momochi Tanba.
His strength is like that of a thousand men.
He's cruel and brutal, and a natural born killer.

He's not someone you'd want to go up against.
I don't want to get involved with that guy
It'll be over if he finds us.
We can't win against them here.
So don't stand out
Let's search for Iwa's village secretly

Father and son?
Uuuh
S-spare him...
At least my father
Uh....
Uh...
Nh-
No!
uh...
Stop!!
!
Then you should end him!!
STOP
PLEASE STOOO
OOOR

Let go!!
As if! You're charging him!?
The fight is over!
There is no need to kill them!
That's what war is, isn't it?
Once you've drawn your sword it's kill or be killed.
You followed your lord with the same resolve, didn't you?

AAAAAAAAAA
UFFFFFF
That's not your battle
Only a fool would throw away their life for a stranger
Give up
This is the kind of era we live in.

!
It seems I'm an idiot.
!
You're...
